

AQUEA | MAIN DRAIN COMPLETE KIT

THE SIMPLE & SEAMLESS MAIN DRAIN SOLUTION FOR CONCRETE POOLS

The AQUEA Main Drain is the complete and superior solution for concrete pools. Easy to install and service, the flush-fitting lid integrates into the surrounding pool interior for a flawless finish every time.

The Main Drain - Complete Kit includes all parts required for a new concrete pool main drain installation.

KEY FEATURES:

- Flush-fit lid clicks into place and seamlessly integrates into pool finish.
- Central valve location within niche for easier access and replacement without annoying internal obstructions.
- Construction cap helps keep the niche clean during pool construction.
- Flush-fit lid provides a smooth & clear surface for automatic pool cleaners.
